- React.js
- HTML5 & CSS3
- JavaScript (ES6+) / TypeScript
- Redux & Redux Thunk
- RESTful API Integration
- Responsive & Modular UI Design
- React Hooks
- React Router
- Formik & Yup
- Code Optimization
- Unit & Component Testing
- Git & GitHub
- Agile & Scrum Collaboration
- Deployment

ABOUT ME

Passionate and experienced React JS Developer with over 5 years of hands-on expertise in building dynamic, responsive, and user-centric web applications. Adept at transforming complex UI/UX designs into high-quality, maintainable front-end code using modern JavaScript frameworks. I aim to bring creativity, performance, and a proactive problem-solving approach to innovative software teams

EXPERIENCE

FULLSTACK DEVELOPER | Tenure: 2 Years

Renad AL Majid Group (RMG) – Saudi Arabia

As a Fullstack Developer, I build end-to-end web applications, creating responsive interfaces with React.js and managing backend logic and APIs for seamless data flow. I optimize performance, ensure data integrity with validations, and maintain reusable components, all while collaborating in Agile teams and deploying scalable, device-responsive solutions.

FRONTEND DEVELOPER | Tenure: 2 Years

Oxford Group of Colleges Karak, KP, Pakistan

As a Frontend Developer, I build responsive and interactive web applications using React.js, HTML5, CSS3, and TypeScript, turning design concepts into functional components. I manage state with Redux, integrate APIs, optimize performance with lazy loading and code splitting, ensure code quality with testing, and collaborate in Agile teams to deliver seamless, user-friendly experiences.

Freelancing | Tenure: 2023 – Till Today Remote & (Platforms: Fiver, Upwork)

Providing computer-related services including web design, WordPress development, programming support, and digital solutions to international clients. Gained experience in client communication, project delivery, and meeting deadlines in a remote environment.
