ABOUT ME

Proficient web developer with hands-on experience in full-stack development, specializing in PHP, MySQLi, JavaScript, and API integrations. I have built dynamic web applications, optimized performance, and worked on scalable solutions. Seeking a role where I can apply my skills in backend development, database management, and modern web technologies while continuously learning and growing.

JOB EXPERIENCE

WEB DEVELOPER

MASIA INSTITUTE & MASIA SOFTWARE HOUSE • Dec 2023 – Sep 2024

I developed and maintained MASIA Software House's student management system and official website, improving administrative efficiency by 50%. I led the backend and frontend development of 5+ client projects, ensuring on-time delivery. I trained and mentored 40+ junior developers and interns, enhancing their skills. I taught web development courses to 100+ students, helping them build real-world projects. I optimized website performance, reducing page load times by 40% through better coding practices.

Junior Frontend Web Developer

Masia institute and software house • Jun 2022 – Dec 2023

I designed 20+ responsive website templates, improving user engagement. I collaborated with a team of 4 developers on multiple client projects. I enhanced UI/UX, reducing website bounce rates by 30% through improved designs.
